The Leroy Township Trustees met in regular session on Monday, June 10, 2013, at 7 p.m., at the Leroy Township Hall.

Present were: Linda Burhenne, Chuck Klco, Richard VanPelt, and Sharon Rodgers.

Linda Burhenne, Chairman, opened the meeting with the pledge to the flag.

Guests: Mike Rock, the Riverside School Board Treasurer gave the financial report for the last couple of years and the projected expenses for the Riverside School District.

Minutes of the previous meeting were read and approved with corrections.

Correspondence: A pre-construction meeting is set for June 12th at 9:30 a.m., at the Lake County Engineer's office regarding the 5-points round a bout. Detours will be Rt. 86, to Brakeman, or Brakeman, Paine, Carter. Residents are requested not to use Celizic.

Gerri Hausch gave Linda a list of historical restoration resources to contact for help with the Leroy Meeting House. Linda stated she has already contacted any resources available. We were not eligible for any money to help restore the Meeting House.

Department Reports:

ZONING: Myron reported 14 calls received regarding zoning and 5 permits issued since the last meeting. A site plan from Allega for the southern property on Vrooman & Carter has been submitted. It is for an asphalt plant, which will be on the very far northeast section of the property. It will have another driveway and landscaping. The plant is a very low heat, non-toxic fumes, and environmental friendly. The trucks going in and out will not be backing up so there will be no backup noises. The plant itself makes no noise. The plans will be given to the site review board. On the 15th of July, Carmen Carbone will be here to present the plans, and then the zoning board will meet to review the details.

Myron stated he has issued five junk car notifications. Three of them were cleaned up. He has discussed our next step with the illegal sign that Osborne has put back up at the entrance ramp on I-90. The Township will have to start all over and site him again. The last time, Mr. Osborne, Myron, and our Attorney all agreed prior to the pre-trial that Mr. Osborne would just take down his sign, which he did. However, this was a verbal agreement; therefore, we have to start over with court proceedings since he has put the sign back up.

The Stein farm subdivision plans meet our current zoning, however there are questions concerning water availability and septic. Test wells are recommended. Also in question is; will the subdivision have a private driveway?

FIRE: The Fire Chief reported 38 calls since the last meeting, year to date 236. The 2013 EMS grant for \$2,500.00 was received. The chief is working on ideas to improve our weekend coverage. We only have one fulltime person so he has been mandated to work several weekends because of shifts not being filled. We currently pay on the average around \$2.00/hr. less to our part-time firefighters then other East end departments. The Chief stated he is looking at pay incentives for weekend coverage.

Linda reported the last C.O.G. meeting with the East end fire departments and political subdivisions discussed the purchase of an air truck.

ROAD: Charlie reported the project this year was to replace several failed crossover pipes. The men have been very busy doing this. We are still waiting for the final agreement with the gas company in order to start the repairs to Taylor Rd. hill. The hold-up has been between the contractor, gas company, and the county engineer. Side road mowing is also being done.

CEMETERIES: Our cemeteries are looking very nice. Several compliments were received about them. There were two funerals one in May and one in June. Total of nine this year so far.

PARKS: Next event is the fall September 7th garage sale. Leroy softball will be having their annual pig roast on the 13th of July. This is a fundraiser with all proceeds going back into the softball fields and equipment.

OLD BUSINESS: Continuation of proposed zoning changes.

At 7:30, Linda opened the meeting for public comment regarding the proposed zoning changes for the Eastern quadrant of Leroy Township from 1.5 acres to 3 acres with 200-foot frontage.
